learning fun,
effective and
wholesome!

Bridging education gaps with tech and Compassion

Today's education landscape is saturated with a multitude of products and solutions, leaving parents, teachers, and students grappling with confusion. Despite the proliferation of edtech tools, the average student continues to perform at average levels, while the

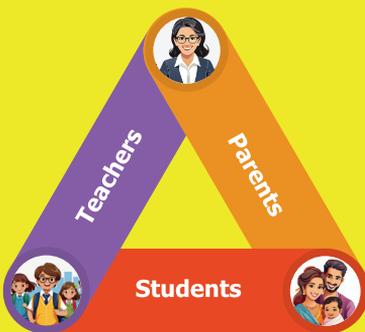

high-achieving student is stifled by high pressure and stress.

In this scenario, an ideal approach would blend both tech-driven learning and compassion for the growing minds. That's the Resorcio approach!

Our Hybrid Approach

We believe in a comprehensive model that includes and goes beyond academic performance. Our solution is designed to address all three domains of a child – Excellence, Health, and Happiness – by engaging and empowering the parents and teachers also.

By nurturing the health, happiness and academic excellence of a child, we create a balanced and supportive learning environment. This is done through a hybrid approach that involves both offline workshops as well as online gamified learning, ensuring academic success and also the well-being and happiness of students.

Study Challenges

Behind every struggling student are unseen challenges quietly undermining their potential. From battling low self-esteem and digital distractions to being lost in outdated learning methods, students face an uphill road to success. It's time to shine a light on these silent saboteurs and reclaim the path to excellence.

The Resorcio Approach!

Outcomes/ Results Expected

Based on actual outcomes at participating schools

For Teachers

- › Teachers are the key link in the educational ecosystem
- › The teacher should be empowered to be in sync with the demands of the new-gen students
- › Our workshops and resources help them enhance their skillsets, enabling them to better engage the students and ensure excellent results

DISHARI

- › 3-day activity-oriented and experiential Upskilling Workshop for teachers
- › Covering 18 customized modules
- › Facilitate the development of participants from being Teachers who impart Knowledge to Transformation Agents.
- › The program comprises of 23 INPUT Modules and 28 OUTPUT Modules.

GAMIFICATION PLUS

- › On-line training on Gamification for Learning & Development
- › Ideal for increasing in-class student engagement
- › Exposure to the array of gamification tools in learning

TEACHER PLUS

- › Year-long handholding to enable implementation of gamified teaching methodology
- › Includes monthly resource bundles of Gamified Teaching Materials to reinforce the learnings

AI PLUS

- One-Day Workshop to introduce AI Tools to enable,
- › Automate Routine Tasks
 - › Personalize Learning for Every Student
 - › Provide Real-Time Feedback

For Students

- › Smart learning is imperative for students to maximise the time spent on studies
- › Our training helps them prioritise and maximise their learning process in a fun, gamified manner
- › Identification of key areas requiring intervention through a gap analysis involving teachers

UFORIA

- › 3-day In-person Workshop for students of Classes 7-12
- › Includes 24 customized modules dealing with
 - › 12 Learning Methods
 - › Memory Techniques
 - › Exam Writing Skills
 - › Soft skills
- › Enable the students to learn and retrieve subjects in an efficient and effective way
Focus on fostering physical and emotional health

CAREER PLUS

- › Online workshop for students on *Career Guidance*
- › Enable students to identify their key strengths and skills
- › KSA profiling of each student will be done through
 - › Physical
 - › Mechanical
 - › Linguistic
 - › Personal
 - › Spatial
 - › Logical SW Analysis.

STUDY PLUS

- › More than 3500+ slides per class comprising Quick Revision Presentations of *English, Science, Social Science, Maths*.
- › Additional Quick-Learning Resources, including *Mnemonics, Chapter Summaries, Mind Maps, and other Memory Hacks*, help students effectively learn, memorize, and reproduce their daily classroom sessions in its maximum potency.

SUPPORT PLUS

Textbook-based, year-long gamified learning program YUDANSHA engages all students through daily games and activities while offering monitoring, analysis, and a reporting system.

ROBOTICS

32-hour hands-on Robotics Workshop for Classes 3 onwards!

- › Solve Real-World Problems
- › Master Coding and Build Innovation
- › Reinforce classroom learning of concepts
- › Robotic Lab

For Parents

**EXCELLENTIA-1
BRIDGING
GENERATIONS**

**EXCELLENTIA-2
PARENTING IN
PERSPECTIVE**

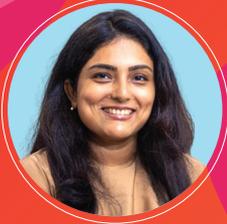

- » Along with parents and students, the third important stakeholders are the parents.
- » Our orientation session gives them a deeper understanding of the innovative teaching/learning approach being carried out amongst the teachers and students.
- » They are enabled and empowered to deliver optimal support at home to the process

EXCELLENTIA-1
Orientation on
Bridging Generations:
Decoding Gen Z and Alpha for
Gen X and Y
